

PRODUCT STANDARD

Part Number SP-23BS-D 150Ω×2

Outer Appearance and Dimensions

Frequency Response

Electrical Specifications

Impedance	$150\Omega \pm 15\% \times 2$	at 1kHz
Output sound pressure level	$93\text{dB} \pm 3\text{dB} \times 2$	at 1mW / 1kHz
Rated input	30mW	
Maximum allowable input	100mW	
Frequency Range	50~20kHz	
Weight	5g	

Notice

Measuring method Measurement by B & K population ears 4153. Measurement input 1mW
Measurement with a dedicated measuring jig. (Φ 60mm baffle, half open)
Diaphragm with protective cover
Phase marking display terminal side is (+)
